## Introduction

**THIS METHOD IS BASED ON THE MOST  
CREDIBLE & ADVANCED SCIENCE IN THE  
WORLD**

Max Planck

Max Planck, Nobel Prize Winning father of quantum theory.

*"I regard matter as derivative from consciousness."*

— *Max Planck, The Observer, 1/25/1931*

**David Bohm**

Einstein called David Bohm a kindred spirit.

David Bohm says that an electron is an *“abstraction that is manifest to our senses.”* In Bohm’s terms, what is not apparent to our senses is enfolded in the implicate order (an inner multidimensional source for this world), and what we see is manifest in the explicate order (our physical reality). In Bohm’s view, the explicate order is not the primary reality, that what we see comes from within an inner dimension. The totality of all of this, including your environment, which Bohm and I see as being a hologram projected by your five senses, Bohm calls the *“holomovement.”*

Bohm says that the *“implicate order has to be extended into a multidimensional reality...the holomovement enfolds and unfolds in a multidimensional order, the dimensionality of which is effectively infinite.”*

This is the scientific way of saying that what you wish for already exist and only needs to be manifest physically by the proper means of conscious focus. Bohm believed that we could attract desirable synchronistic events through proper focus of attention. Focus on what you want to become, and you can cause it to

manifest in your reality. You are a probable self. You can manifest another version of who you are with simple steps given in this book.

### **Selecting Identity**

The “Selecting Identity Method” can be used to become successful, wealthy, healthy, to lose weight, get smarter or whatever you want, overnight. With this method you simply select the identity that encompasses any goals you wish to achieve, and as a result you become that identity with those wishes realized.

It works exactly like the Cinderella story. In fact, I could call it The Cinderella Method. The only reason I didn’t is because it doesn’t sound as scientific. The way it works is that you have a wish, imagining or positive thought. Following a specific formula that thoughtform then starts a magical internal process that ultimately leads to the full manifestation of that thoughtform. When applied correctly the process generates synchronistic events. Things happen that would not otherwise happen.

The reason that this works is because imagination selects probabilities. Imagination can select identity. Once identity is established, all else follows. The self changes constantly in this way regardless, you need only understand how change occurs and then direct the process for the results desired. You can become whatever you want.

If you say to a person adopting an identity, “you’re not that person, how can you just decide to be something and not do

## MIND POWER FOR SUCCESS GUARANTEED - Mind Over Matter for Money, Success & Health

anything and expect it to work,” then you have no idea how the universe works.

The fact that you have many probable selves that are components of your overall identity and whole self is supported Einstein’s relativity, David Bohm (former protégé of Einstein) and by the many-worlds interpretation of quantum mechanics which is hugely popular among physicists.

The ideal self you aspire to be already exists. I am not speaking symbolically. That authentic self is not just an idea, it exists within you now. There are many variations of the self you are within you. I call them probable selves or alternate identities.

For portions of my life I was a kind of misfit in certain respects, and now with application of this method I have become an author and highly accomplished. If I can do it so can you.

I have taken a unique method that enables you to create what you desire in life, made it into a practical blueprint, and packaged it for you in a simple and easy to understand book. You can choose Darwin’s Evolution, a religion, or take the third option: This is the third option. It is factual and it is very powerful and effective. It works.

# Chapter One

## THE THIRD OPTION

*"Education is what remains after one has forgotten what one has learned in school."*

— *Albert Einstein*

### A CHILD'S MAGIC REALITY UNFOLDING

I believe in a magical universe. My parents were like gods to me when I was ten in 1973. They would say, “*we don’t believe that,*” referencing both religion and the big-bang kind of science that was popular at that time. Yet, in reality my parents were domesticated in worldviews that I would struggle to break free from. My early environment was chosen to provide the necessary questioning and conditions to propel me into my primary interests. I was born into an environment in which new ideas were coming into the world and those around me could not quite make the leap of faith
